I. WELCOME TO Bluejay Beginnings Community Preschool QPPS 10.1

The program's goal is to provide a high quality preschool program meeting each child's needs, including children with disabilities and those from a diverse background. The preschool provides a rich learning environment that encourages children's natural curiosity and supports them to take risks that lead to new skill development. It is a setting where children feel safe, respected, and cared for. This is an opportunity for all three and four-year-old children to take part in planned, active learning experiences to build their readiness skills. The preschool program has adopted and meets the Iowa Quality Preschool Program Standards, administered by the Iowa Department of Education. The Iowa Early Learning Standards are used to guide expectations for the children and instructional practices.

II. MISSION, PHILOSOPHY, AND GOALS QPPS 10.1

Mission:

Help all children develop their talents in order that they may become productive citizens.

Vision Statement:

The Bondurant-Farrar Community School District is committed to providing:

- Optimal opportunities and sincere encouragement to students to succeed socially, emotionally, and academically.
- A safe and orderly environment where all students are comfortable and secure.
- A mutually supportive, collaborative, and productive home-school partnership.
- A curriculum to meet the needs of a diverse learning community.
- Research-based instruction designed to meet the needs of all students.
- Teaching and modeling the character qualities of trustworthiness, respect, responsibility, fairness, caring, and citizenship to students.

PreK-4th Grade School Philosophy of Education:

We believe:

- Student learning is the most important element of our society.
- Students learn best in a safe and caring environment.
- Innovative learning activities and various teaching strategies enhance learning.
- Respect for diversity develops tolerance within the school and our society.
- Effective learning produces life-long skills.
- Leaders never lose sight of best practice.
- Teaching the importance of citizenship benefits the school and the community.
- Productive discipline incorporates control, consistency, and care.

- Memorable and enjoyable activities foster learning.
- School, home and community cooperation facilitates and reinforces learning.

Goals for Children:

- Children will show competence in social/emotional, physical, cognitive, and language development skills.
- Children will be enthusiastic and curious learners.
- Children will be safe and healthy.

Goals for Families:

- Families will feel welcome in the classroom and school.
- Families will work with the school in a meaningful partnership to help their children be better prepared to learn to read and write.
- Families will advocate for their children.

III. ENROLLMENT

Equal Educational Opportunity

It is the policy of the Bondurant-Farrar School District not to discriminate in its education programs or educational activities on the basis of age, race, color, creed, religion, gender, gender identity, sexual orientation, marital status, national/ethnic origin, socio economic status, genetic information, or disability. Students are educated in programs, which foster knowledge of, and respect and appreciation for, the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society. Students who feel they have been discriminated against are encouraged to report it to the school district Affirmative Action Coordinator, Chad Carlson, and he can be reached at 515-967-7819. Inquiries may also be directed in writing to the Director of the region VII Office of Civil Rights, US Department of Education, 310 W. Wisconsin Ave., Ste. 800, Milwaukee, WI, 53203-2292, (414) 291-1111, or the Iowa Department of Education, Grimes State Office Building, Des Moines, IA 50319-0146, (515) 281-5294. Procedures and levels are outlined in district policy for resolving complaints and are available upon request from the curriculum director's office.

Eligibility

A child must be 3 years old on or before September 15 of the current year to attend 3 year old classes. Students attending the 4 year old classes must be 4 years old on or before September 15 of the current year. Preschool is open to students who reside within the Bondurant-Farrar School district.

Lottery Registration

Registration for Bluejay Beginnings Preschool will include a lottery. Parents/Guardians must return necessary lottery registration information to the district registrar to place their child on the lottery list for a spot in the preschool program. Parents may submit a lottery application beginning in January. A lottery drawing will be held in March and families will be notified of their child's acceptance.

Special education and at-risk students will be given priority placement into the preschool program. Low-income families who apply and qualify for ECI grant funding, which is based upon federal income eligibility guidelines, will also be given priority placement into the preschool program.

Upon acceptance parents will have approximately two (2) weeks to complete a registration form. If twins or multiples are registered for the lottery they will not be separated. If one is drawn, all multiples will get a spot. If one twin or multiple receives special education services the other sibling(s) will be guaranteed a spot in the classroom. It is our intent not to split twins or multiples. Also, children who participate in the 3 year old program will be guaranteed a spot in the 4 year old program if parents apply in a timely fashion. Children who attend both 3 and 4 year old Bluejay Beginnings programs will not be eligible for Morris's Developmental Kindergarten program.

Hours

Classes will meet 4 days a week for a half-day. The schedule is as follows:

- Tuesday-Friday 8:20-11:00 am - Ms. Maggie 3 year old
- Tuesday-Friday 8:20-11:00 am - Ms. Angie 3 year old
- Tuesday-Friday 8:20-11:00 am - Ms. Courtney 4 year old
- Tuesday-Friday 8:20-11:00 am - Ms. Mikayla 4 year old

- Tuesday-Friday 12:35-3:15 pm - Ms. Maggie 3 year old
- Tuesday-Friday 12:35-3:15 pm - Ms. Angie 4 year old
- Tuesday-Friday 12:35-3:15 pm - Ms. Courtney 4 year old
- Tuesday-Friday 12:35-3:15 pm - Ms. Mikayla 4 year old

General Information QPPS 5.1

Bluejay Beginnings Preschool Program maintains current health records for each child. The program follows the requirements for enrollment related to immunizations established by the Iowa Department of Public Health [IAC 641-7].

If a child is overdue for any routine health services the parent, legal guardian, or both will need to provide evidence of an appointment for those services before the child's entry into the program and as a condition of remaining enrolled in the program, except for immunization for which parents are using a religious exemption.

3 Year Olds

The 3 year old program will accept approximately 20 students at the beginning of each school year. The maximum class size for our three year olds is 14 children for integrated classrooms. A teaching staff-child ratio of no more than 1:9 will be maintained at all times to encourage adult-child interactions and promote activity among children. Classrooms will be made up of more than 50% general education students. Special education and at-risk students, including low income families, will be given priority spots for the 3 year old program during registration. Certified staff members' children will also be given priority placement, at 30% of the total staff 3 year old applicants.

4 Year Olds

The 4 year old program will accept approx 116 students at the beginning of each school year. The maximum class size is 20 students for the 4 year old Statewide Voluntary Preschool classroom. A teaching staff-child ratio of 1:10 with one teacher and associate will be maintained at all times to encourage adult-child interactions and promote activity among children. Special education and at-risk students, including low income families, will be given priority spots for the 4 year old program during registration. Additionally, in order to help attract and retain the best teachers, priority enrollment will be given to students of district staff members who have demonstrated a quality work history with the district. The district will maintain a current list of available substitutes for both the teacher and teacher assistant. **QPPS 10.4**

Tuition

There is no tuition for 4 year old preschool classes. All tuition is covered through Statewide Voluntary Preschool Program funding.

Likewise, there will be no tuition for 3 year old preschool classes. All tuition is covered through the ECI (Early Childhood Iowa) Grant along with funding from the Statewide Voluntary Preschool Program Grant. Families who wish to have a higher priority within the lottery may apply for ECI grant funding during registration. Grant funding is based upon federal income eligibility guidelines. All required paperwork must be turned in before families will be awarded ECI grant funding and a higher priority for enrollment.

Inclusion

The preschool program provides all children, including those with disabilities and unique learning needs, a safe environment to learn and play. Modifications are made in the environment and staffing patterns in order to include children with special needs. Staff is aware of the identified needs of individual children and is trained to follow through on specific intervention plans. It is our belief that inclusion in our program will enrich the experience for teachers, students, other children and their families. The preschool facilities meet the Americans with Disabilities Act accessibility requirements. **QPPS 9.10**

IV. A CHILD'S DAY

Who Works In The Preschool

- Program Administrator: The elementary principal or assistant principal is designated as the program administrator supervising the preschool program. The principal or assistant principal meets all qualifications described in the Iowa Quality Preschool Program Standards. **QPPS 10.2**
- Teacher: A full-time teacher licensed by the Iowa Board of Educational Examiners and holding an early childhood endorsement is assigned to the preschool classroom. **QPPS 6.2**

- Teacher Assistant: A full-time teacher assistant in the classroom carries out activities under the supervision of the teacher. The teacher assistant will have specialized training in early childhood education. **QPPS 6.3**
- School Nurse: The preschool will have the assistance of the school nurse. The school nurse is employed full time, is a certified RN, and is recertified every three years. The nurse maintains student health records by updating them quarterly, and attends to the health needs of the students while they are at school. The nurse is available for parent consultation when necessary. **QPPS 10.8**
- Support Staff: Heartland AEA support staff provide resources and assistance to the teacher and classroom upon request to help all children be successful in the preschool setting. Such staff may include: early childhood consultant, speech and language pathologist, social worker, occupational therapist, physical therapist or others.

Daily Activities

A consistent daily schedule is planned to offer a balance of learning activities. Learning is both formal and informal. Play is planned for every day. Listening is balanced with talking, group activities with solitary time, indoors with outdoors, quiet play with noisy play. A variety of age and developmentally appropriate materials and equipment are available indoors and outdoors for children throughout the day. This equipment includes: **QPPS 9.1**

- 1) dramatic play equipment;
- 2) sensory materials such as sand, water, play dough, paint, and blocks;
- 3) materials that support curriculum goals and objectives in literacy, math, science, social studies, and other content areas; and,
- 4) gross motor equipment for activities such as pulling up; walking; climbing in, on, and over; moving through, around, and under; pushing; pulling; and riding.

Weekly newsletters are sent home telling about learning experiences. **QPPS 7.4**

Curriculum

Curriculum is a framework for learning opportunities and experiences. It is a process by which learners obtain knowledge and understanding, while developing life skills. It is continually revised and evaluated to make learning fun and exciting.

It is the policy of this district that the curriculum content and instructional materials utilized reflect the cultural and racial diversity present in the United States and the variety of careers, roles, and lifestyles open to women as well as men in our society. One of the objectives of the total curriculum and teaching strategies is to reduce stereotyping and to eliminate bias on the basis of sex, race, ethnic origin, religion, self-identity, and physical disability. The curriculum should foster respect and appreciation for the cultural diversity found in our country and an awareness of the rights, duties, and responsibilities of each individual as a member of a multicultural nonsexist society. **QPPS 1.7, 2.4**

The preschool program uses *Creative Curriculum*, a research and evidence based comprehensive curriculum designed for three and four year-olds. It addresses all

areas of early learning: language, literacy, math, science, physical skills, and social skills. It is based on projects of study that are familiar and meaningful to young children. It provides children an opportunity to learn in a variety of ways including play, problem solving, movement, art, music, drawing and writing, listening, and storytelling. Suggestions for modifications and adaptations are an integral part of the curriculum. **QPPS 2.1 - 2.3**

The Creative Curriculum for Preschool is a comprehensive curriculum, linked to an assessment system (GOLD Assessment) that fully meets the criteria for appropriateness and effectiveness. It addresses teachers' need to know what to teach and why and how children learn best. The curriculum provides a framework on how teachers can respond to the individual needs and learning styles of all children. The curriculum is inclusive of all children – those developing typically, children with disabilities, and English language learners. *The Creative Curriculum for Preschool* is a scientifically based, research-tested model. (Adapted from www.teachingstrategies.com)

Child Assessment QPPS 4.1, 4.2

Guiding Principles:

It is the school district's belief that assessment of young children should be purposeful, developmentally appropriate, and take place in the natural setting by familiar adults. The results will be used for planning experiences for the children and to guide instruction. Assessment will never be used to label children or to include or exclude them from a program. A family's culture and a child's experiences outside the school setting are recognized as being an important piece of the child's growth and development. All results will be kept confidential, placed in each child's file, and stored in a secure filing cabinet.

Children are assessed in the following ways:

- *Teaching Strategies GOLD Assessment* aligns with the Iowa Early Learning Standards. It records student progress in all developmental areas at the beginning, middle and end of the year.
- Observational data provides an ongoing anecdotal record of each child's progress during daily activities.
- Child portfolios are organized by the teaching staff and include the assessments, observational data, and child work samples collected on an ongoing basis.
- Families are asked to contribute information about their child's progress. Young children often show different skills in different settings. Working together, the teaching staff and families can gather a complete picture of a child's growth and development.

The information from the above is used in the following ways:

- To provide information about children's needs, interests, and abilities in order to plan developmentally appropriate experiences for them;
- To provide information to parents about their children's developmental milestones;
- To indicate possible areas that require additional assessment.

QPPS 7.3, 7.4, 4.9

Assessment information will be shared formally with families during Parent Teacher Conferences in the fall and spring. In addition, families have ongoing opportunities to share the results of observations from home to contribute to the assessment process. The *Teaching Strategies GOLD Assessment* will be shared at conferences. The preschool teacher will communicate weekly regarding children's activities and developmental milestones. Informal conferences are always welcome and can be requested at any time.

If, through observation, information on the *Teaching Strategies GOLD Assessment*, or other assessment information, the teacher feels that there is a possible issue related to a developmental delay or other special need, she/he will communicate this to the family during a conference, sharing documentation of the concern. Suggestions for next steps may include the following, with the knowledge and consent of the parents:

- The teacher requests assistance from the Preschool Team (teachers, AEA staff, and administration) as an early intervention process. This team engages in problem identification, plan interventions, provide support, and make outside resources available to those individuals requesting assistance. The team is available and functional for all preschool students.
- A request made to Heartland Area Education Agency for support and additional ideas or more formalized testing.

The preschool teacher would assist in arranging for developmental screening and referral for diagnostic assessment when indicated. **QPPS 4.2, 7.6**

If a child is determined to need special accommodations, those accommodations are included in the materials, environment, and lesson plans for that child. Examples include sign language and visuals for children with hearing impairments or language delays and behavior plans for children whose behavior does not respond to the typical strategies used by teaching staff in the classroom.

Program Assessment

Bluejay Beginnings Preschool implements the Iowa Quality Preschool Program Standards (IQPPS). We regularly receive verification visits or desk audits to confirm we are meeting these standards. Administrators, families, staff, and other routinely participating adults will be involved annually in a program evaluation that measures progress toward the program's goals and objectives. The annual evaluation process includes gathering evidence on all areas of program functioning, including policies and procedures, program quality, children's progress and learning, family involvement and satisfaction, and community awareness and satisfaction. A report of the annual evaluation findings is shared with families, staff, and appropriate advisory and governance boards. The program uses this information to plan professional development and program quality-improvement activities as well as to improve operations and policies.

Supervision Policy

The preschool staff will complete the following safety checklist indoor and outdoor:

- All safety plugs and electric outlets covered, heat/AC, water temperature, and toilets, etc. in working order.
- All cleaning supplies/poisons out of children reach and are stored properly.
- Classroom and materials checked for cleanliness/broken parts, etc. including playground.
- Supplies checked - first aid kit, latex gloves, soap, paper towels, etc.
- Daily monitoring of the environment - spills, sand, etc. Other serious problems reported to the head custodian.
- Upon arrival, each child is observed by the teacher for signs of illness or injury that could affect the child's ability to participate in the daily activities.

No child will be left unsupervised while attending preschool. Staff will supervise primarily by sight. Supervision for short intervals by sound is permissible as long as teachers check every two to three minutes on children who are out-of-sight (e.g. those who can use the toilet independently, who are in the library area, etc.) **QPPS**

9.2

Child Guidance and Discipline QPPS 1.9

Teaching staff will equitably use positive guidance, redirection, and planning ahead to prevent problems. They will encourage appropriate behavior through the use of consistent clear rules, and involve children in problem solving to foster the child's own ability to become self disciplined. Where the child understands words, discipline will be explained to the child before and at the time of any disciplinary action.

Teaching staff will encourage children to respect other people, to be fair, respect property and learn to be responsible for their actions. Teaching staff will use discipline that is consistent, clear, and understandable to the child. They will help children learn to persist when frustrated, play cooperatively with other children, use language to communicate needs, and learn turn taking.

Challenging Behavior QPPS 1.2, 1.8, 1.9

The teaching staff in the preschool is highly trained, responsive, respectful, and purposeful. The teachers anticipate and take steps to prevent potential challenging behaviors. They evaluate and change their responses based on individual needs.

When children have challenging behaviors, teachers promote prosocial behavior by:

- Interacting in a respectful manner with all children
- Modeling turn taking and sharing as well as caring behaviors
- Helping children negotiate their interactions with one another and with shared materials
- Engaging children in the care of their classroom and ensuring that each child has an opportunity to contribute to the group
- Encouraging children to listen to one another and helping them to provide comfort when others are sad or distressed

Teaching staff will guide children to develop self-control and orderly conduct in relationship to peers and adults. Children will be taught social, communication, and emotional regulation skills. If a child displays persistent, serious, and challenging behavior, the teaching staff, parents, and AEA support staff will work as a team to

develop and implement an individualized plan that supports the child's inclusion and success.

Aggressive physical behavior toward staff or children is unacceptable. Teaching staff will intervene immediately when a child becomes physically aggressive to protect all of the children and encourage more acceptable behavior.

Permissible Methods of Discipline:

For acts of aggression and fighting (biting, scratching, hitting) staff will set appropriate expectations for children and guide them in solving problems. This positive guidance will be the usual technique for managing children with challenging behaviors rather than punishing them for having problems they have not yet learned to solve. In addition, staff may: (1) Separate the children involved; (2) Immediately comfort the individual who was injured; (3) Care for any injury suffered by the victim involved in the incident; (4) Notify parents or legal guardians of children involved in the incident; (5) Review the adequacy of the teaching staff supervision, appropriateness of program activities, and administrative corrective action if there is a recurrence.

Prohibited Practices

The program does not, and will not, employ any of the following disciplinary procedures:

1. Harsh or abusive tone of voice with the children nor make threats or derogatory remarks
2. Physical punishment, including spanking, hitting, shaking, or grabbing
3. Any punishment that would humiliate, frighten, or subject a child to neglect
4. Withhold or threaten to withhold food as a form of discipline

Water activities QPPS 5.7, 9.14

We have a water table in the classroom for children to stand and play with their hands in the water. During water play children are involved in active experiences with science and math concepts. Children with sores on their hands are not allowed to participate with others in the water table to ensure that no infectious diseases are spread. Children are not allowed to drink the water during water play activities. When the activity period is complete, the water table is drained and refilled with fresh water before a new group of children comes to participate. Outdoor water play is limited to tubs and buckets or containers as well as the water table. We do not participate in swimming pool activities. Staff supervises all children by sight and sound in all areas with access to water in tubs, buckets, and water tables.

Snacks/Foods and Nutrition QPPS 5.9 - 5.17

Attitudes about food develop early in life. The food children eat affects their well-being, their physical growth, their ability to learn, and their overall behavior. We have an opportunity to help children learn about foods, to enjoy a variety of foods from their own culture and others, and to help them begin to appreciate that their bodies need to be strong, flexible, and healthy. Eating moderately, eating a variety of foods, and eating in a relaxed atmosphere are healthy habits for young children to form.

Children attending the morning or afternoon sessions are served a snack at a regularly scheduled time. Children are often involved in preparing and making snacks. Two food groups will be represented at each snack time as outlined in the USDA guidelines. A written snack menu is posted in the classroom and available to families. All menus are kept on file for review by a program consultant. The preschool serves a wide variety of nutritional snacks, and encourages children to expand their tastes by at least trying a portion of the food offered.

All food is prepared, served, and stored in accordance with the U.S. Department of Agriculture Child and Adult Care Food Program (CACFP) guidelines. Clean, sanitary drinking water is made available to children throughout the day. Staff discards any foods with expired dates. Foods that are hotter than 110 degrees Fahrenheit are kept out of children's reach. Foods requiring refrigeration will be kept cold until served.

For each child with special health care needs, food allergies, or special nutrition needs, the child's health care provider should provide the program with an individualized care plan prepared in consultation with family members and the specialist involved in the child's care. Children with food allergies shall be protected from contact with the problem food. With family consent, the program posts information about the child's allergies in the food preparation area and in areas of the facility the child uses to serve as a visual reminder to all adults who interact with the child during the day. Program staff will keep a daily record documenting the type and quantity of food a child consumes when any child with a disability has special feeding needs and provide parents with that information.

High risk foods, often involved in choking incidents, will not be served. For children younger than four years, these include hot dogs, whole or sliced into rounds; whole grapes; nuts; popcorn; raw peas and hard pretzels; spoonfuls of peanut butter; or chunks of raw carrots or meat larger than can be swallowed whole.

The school district does not use foods or beverages as rewards for academic performance or good behavior, and will not withhold food or beverages as a punishment, nor will teaching staff ever threaten to withhold food as a form of discipline.

Outside Play and Learning QPPS 5.4

We have daily opportunities for outdoor play as the weather permits and provided the weather air quality and environmental safety conditions do not pose a threat. This allows children the opportunity to develop their large muscle skills, get exercise, and be active. Sometimes we spend longer getting bundled up than we spend outside. We use the Child Care Weather Watch guidelines produced by Healthy Child Care Iowa and IDPH to determine if the Wind Chill Factor or Heat Index is safe for outdoor play.

In cases when we cannot go outside (due to weather conditions) children are given the opportunity to use indoor equipment for similar activities inside and are supervised at the same level as outdoor equipment. For example, tumbling mats may be offered for upper body activities or rolling across the mat.

In order to make sure that your child can play comfortably outside it is important to dress him/her according to the weather. When it is cold outside he/she needs a warm coat, mittens or gloves, a hat, snow pants and gloves (labeled with your child's name). For the warmer days, dressing your child lightly is just as important. For those in-between days, dressing your child in layers is a practical idea. Children are encouraged to wear tennis shoes or other appropriate shoes for running and play.

There are areas on the playground for children to be in the shade and still be active. We encourage you to bring a hat or other clothing for your child to wear as another protection from the sun. Sunscreen or sunblock with UVB and UVA protection of SPF 15 or higher will be applied to your child's exposed skin (only with your written parental permission to do so). We will also use an insect repellent containing DEET (only with your written permission) no more than once a day to protect your child from insect bites when the public health authorities recommend its use.

Program staff will complete the National Program for Playground Safety Suggested General Maintenance Checklist on a weekly basis.

Clothing

Your child will be learning through creative, active play that can sometimes be messy. Your child should wear comfortable, washable clothing as well as rubber-soled and closed-toe shoes appropriate for running and play to school. While we encourage the use of paint smocks or shirts during art projects, we can't guarantee that spills or stains will not occur. Clothing should be free of words, graphics, or pictures that are profane, immoral, illegal, or disruptive in nature. All families are asked to provide an extra set of clothing for their child in case of an "accident" or messy play. Please clearly label the clothing with your child's name to reduce the possibility of mistakes.

Toilet Learning QPPS 5.5

Toilet learning is an important time in a child's development. For children who are unable to use the toilet consistently, the following procedures are in place:

1. Diapering will only be done in the designated diaper area, i.e., the bathroom in the classroom. Food handling will not be permitted in the diapering area.
2. Staff will follow all diapering guidelines set forth in the Iowa Quality Preschool Programs Standards: Standard 5, Criteria 5:
 - Staff checks children for signs that diapers or pull-ups are wet or contain feces at least every two (2) hours. Diapers are changed when wet or soiled.
 - Staff changes children's diapers or soiled underwear in the designated changing areas and not elsewhere in the facility.
 - At all times, caregivers have a hand on the child if being changed on an elevated surface.
 - Surfaces used for changing and on which changing materials are placed are not used for other purposes, including temporary placement of other objects, and especially not for any object involved with food or feeding.

- Containers that hold soiled diapers and diapering materials have a lid that opens and closes tightly using a hands-free device (e.g., a step can). Containers are kept closed and are inaccessible to children. The container will be clearly labeled to show its intended use.
 - Diapering and Gloving posters will be posted in the changing area showing procedures through the use of visuals and words. These procedures are used by the program administrator to evaluate teaching staff that change diapers.
 - Staff will work with families to provide consistency in reaching bathroom independence.
3. Potty chairs will not be used due to the risk of spreading infectious diarrhea.
 4. All families are asked to provide an extra set of clothing for their child in case of an “accident” or messy play. Please clearly label the clothing with your child’s name to reduce the possibility of mistakes.
 5. Families are required to provide wipes and pull-ups for their child. The school district is not responsible for supplying these items.

Objects from Home

Because the preschool program provides ample toys and learning materials for your child, we ask that you limit toys brought from home. If your child brings an “attachment” item from home, we ask that it is small enough to fit inside his/her backpack or cubby. Please do not allow children to bring gum, candy, money, or toy guns to school. The program cannot be responsible for lost or broken toys brought from home.

Weapon Policy

No student shall carry, have in his or her possession, store, keep, leave, place or put into the possession of another student any real weapon or a look-alike weapon on any school premises, in any school vehicle or any vehicle used by the school or for school purposes, in any school building or other buildings or premises used for school functions, whether or not any person is endangered by such actions.

"Look-alike weapon" means any item that resembles or appears to be a weapon.

Classroom Animals and Pets

If you, as a parent or legal guardian, want to bring your family pet to share with your child’s classroom you are welcome. However, all animals must remain outside the school buildings during the visit. The preschool teacher ensures that the animal does not create an unsafe or unsanitary condition. The animal must appear to be in good health and have documentation from a veterinarian or an animal shelter to show that the animal is fully immunized (if the animal should be so protected) and suitable for contact with children. The teacher would ensure staff and children practice good hygiene and hand washing when coming into contact with the animal and after coming into contact with the animal. Teaching staff supervise all interactions between children and animals and instruct children on safe behavior when in close proximity to animals.

Any children allergic to the pet will not be exposed to the animal. Reptiles are not allowed because of the risk for salmonella. The classroom teacher is responsible for checking requirements have been met.

Birthdays QPPS 5.10

Birthdays are an important and significant event in the life of a child. They afford the opportunity for children to be given special recognition. Accordingly, students who wish to bring treats for the class on their birthday may do so. Food that comes from home for sharing among the children must be either whole fruits or commercially prepared packaged foods in factory-sealed containers. The teacher will share appropriate classroom allergy information as needed. Those who have summer birthdays are welcome to choose a school day to celebrate with their class. Invitations to parties outside of school that do not include the entire class will not be distributed at school.

V. COMMUNICATION WITH FAMILIES QPPS 1.1, 7.4

The program will promote communication between families and staff by using written notes as well as informal conversations or e-mail. Families are encouraged to send written notes with important information so all the staff who work with the child can share the parent's communication. Teaching staff will write notes for families no less than weekly about the daily activities. Staff will use these notes to inform families about the child's experiences, accomplishments, behavior, and other issues that affect the child's development and well-being. Parents are encouraged to maintain regular, on-going, two-way communication with the teaching staff in a manner that best meets their needs - email, in person, notes, or phone calls.

Open Door Policy

Parents and legal guardians are always welcome to visit the preschool classroom. As a safety feature, all parents and visitors will check in at the elementary school office. Visitors are asked to please use discretion with regard to bringing babies and toddlers to school as young children may disrupt class sessions. Photo identification will be required for any unknown visitor to the classroom.

Arrival and Departure of Children QPPS 10.9

All motor vehicle transportation provided by parents, legal guardians or others designated by parents or legal guardians will include the use of age-appropriate and size-appropriate seat restraints.

When bringing your child to school, we ask that parents follow two easy steps.

Step 1: When pulling up to the school, please park along the curb closest to the building. This is the safest way for students to arrive at school and not have to cross other traffic that may be leaving.

Step 2: We ask that everyone please stay with their car. Regardless of the number of students you are dropping off, please stay with your vehicle as an adult will be available to greet students as they get out of the car and help line them up. This is the system that we use every day for all of the students at preschool and it works

very well. Should you need to walk your student in for any reason, we ask that you park in the East parking lot and walk your student into the main office. Someone in the office will contact staff from the preschool wing to assist your child.

Other than parents or legal guardians, only persons with prior written authorization (Parent Consent Form) will be allowed to pick up a child from the school. Anyone who is unfamiliar to teaching staff, including authorized individuals, will be asked to present photo identification before a child is released to them.

In the interest of students' safety, when picking up a child early, parents/guardians/authorized individuals are requested to report directly to the office rather than going to the child's classroom. Likewise, when a student arrives at school during the school day, the adult should stop in the office and sign the child in.

If your child receives specialized transportation and rides the school bus/van to school, teaching staff will go to each bus/van as it arrives to greet and assist the student off the bus/van. At dismissal, teaching staff will accompany each student to the bus/van and assist the student onto the bus/van.

When children have arrived, teaching staff will walk the children to the classroom where the preschool staff will record attendance for the day. Throughout the day each time children transition from one location to another, i.e. classroom to outdoor, the teacher will be responsible for counting the number of children whenever leaving one area and when arriving at another to confirm the safe whereabouts of every child at all times.

Transportation

The Bluejay Beginning Preschool will provide school bus transportation for preschoolers on field trips and for students who qualify for specialized transportation based on their IEP. Parents are responsible for transporting children to and from school.

For children who have special needs for transportation, the facility will use a plan based on a functional assessment of the child's needs related to transportation that is filled out by the child's physician. This plan will address special equipment, staffing and care in the vehicle during transport. Any accommodations indicated in the child's Individualized Educational Program will be implemented as described.

Field Trips

An important learning opportunity can take place in the form of a field trip that is relevant and reinforces what has been taught in the classroom. Bondurant-Farrar school buses are used for these field trips. Parents will be informed of each field trip through a newsletter and signs posted in the classroom well in advance. A parent or legal guardian must sign an informed consent form for trips for each child at registration. Adult family members are asked to volunteer to go on these trips to provide increased supervision and adult/child ratios. A notice posting the dates, time of departure, time of return, and the destination location will be posted prominently at least 48 hours before the field trip. Before every trip, the teaching staff will instruct

children and all adults using the bus about the 10-foot danger zone around the vehicle where the driver cannot see.

During the field trip, all children will wear identifying information that, for children, gives the program name and phone number. A first aid kit, emergency contact information, and emergency transport authorization information for the children in the group will be taken on all trips. Children will be counted every 15 minutes while on a field trip. Children may only use a public restroom if they are accompanied by a staff member. Children will never be left alone in a vehicle or unsupervised by an adult.

Attendance

Students who are enrolled for classes in the Bluejay Beginnings Preschool are expected to be in school for the full session and are expected to be punctual in their arrival and departure. Students are not expected to be absent any more than is necessary for health reasons or appointments. Irregular attendance interferes with the progress of your child and others as teachers find themselves taking class time to repeat information and make adjustments for those students who have been absent. Please call the elementary office with the reason for an absence no later than 8:30 A.M. if your child attends the morning session and by 12:30 P.M. for the afternoon session. For safety's sake, if a student is absent without notification, the school secretary/teaching staff will attempt to contact the family to verify the child's absence from school. Excessive absenteeism may be cause for the student to be dismissed from the program. This will be handled on a case-by-case basis.

Ethics and Confidentiality

Staff follow an important code of ethics to guide their involvement with children and families. It is essential to protect the confidentiality of all information concerning children and their families. Maintaining a professional attitude includes being responsive to the needs of children and their families while balancing the need for confidentiality. Children are people who deserve respect. One way we demonstrate this respect is to refrain from talking about the children in their presence unless the child is part of the conversation and to refrain from labeling a child negatively or positively. No information about any particular child shall be shared with another child's parent. We continually strive to model such qualities as patience, tolerance, cooperation, acceptance, understanding of others, and enthusiasm for children as well as for other adults.

All teaching staff will receive training on ethics and confidentiality on the National Association for the Education of Young Children's Code of Ethical Conduct as part of their orientation. Each staff person will sign a Statement of Commitment to document their willingness to hold close the values and moral obligations of the field of early childhood education.

Children's Records QPPS 7.6

Student records containing personally identifiable information, except for directory information, are confidential. Only persons, including employees, who have a legitimate educational interest, are allowed to access a student's records without the

parent's permission. Parents may access, request amendments to, and copy their child's records during regular office hours. Parents may also file a complaint with the United States Department of Education if they feel their rights regarding their child's records have been violated. For a complete copy of the school district's policy on student records or the procedure for filing a complaint, contact the board secretary in the district administration office.

Parents or guardians will be asked to sign a release of information form should they or the school request information be shared with another agency, stating to whom the information is to be released, the reason or purpose for the release of information, when it expires, and ways the parents can withdraw permission if they choose to do so.

Parent Advisory Committee QPPS 7.2

Bluejay Beginnings Preschool has a parent advisory committee composed of parents, school staff, and other community members interested in the preschool program. This group meets twice a year to provide feedback on services that meet children and family needs. They also serve as a sounding board for new ideas and services. Please let the preschool teacher know if you are interested in being part of the Parent Advisory Committee.

Grievance Policy QPPS 7.5

Open and honest communication between families and the preschool program is an essential component of a high quality early childhood program. We want you to be confident that your child is being well cared for and is having a quality experience. If there is ever a time you have a concern regarding your child, we want to encourage you to address your concern to your child's teacher. If additional help is needed, either party may ask for the assistance from the Elementary Principal/Associate Principal.

If you have a concern regarding some aspect of the program or policy, please contact the Elementary Principal/Associate Principal who is the program administrator for the preschool. If you remain dissatisfied, you may contact the Superintendent of Bondurant-Farrar Community Schools.

As part of our program assessment, in the spring of each year, we also provide you with a family questionnaire to evaluate our program. This information helps us to assess how the program is meeting the needs of families and children, as well as to identify strengths and weaknesses.

VI. FAMILY INVOLVEMENT QPPS 7.1 - 7.4

Bluejay Beginnings Preschool encourages families to be very involved in their child's education by observing their children during the day when possible and meeting with staff. Family members are welcome to visit at any time during class sessions.

Teachers and administrators use a variety of formal and informal ways to become

acquainted with and learn from families about their family structure and their preferred means of child-rearing practices and communication; and information about their socioeconomic, linguistic, racial, religious, and cultural backgrounds as they wish to share. Families are surveyed in enrollment paperwork and through other questionnaires during the year regarding their family, beliefs, and preferences. Home visits are conducted at the beginning of the school year. Program staff communicate with families on at least a weekly basis regarding children's activities and developmental milestones, shared caregiving issues, and other information that affects the well-being of their children. Family teacher conferences are held in both the fall and spring semesters, as well as when either party requests. At least one Family Night is held during the year.

Bluejay Beginnings Preschool values the time spent talking and interacting with families and developing strong, reciprocal relationships. As the teacher learns from the families' expertise regarding their child's interests, approaches to learning, and developmental needs, goals for your child's growth and development can be incorporated into ongoing classroom planning. Families are encouraged to share any concerns, preferences or questions with the preschool teacher or administration at any time.

Although in-person daily contact cannot be replaced, preschool staff also rely on notes home, emails, phone calls, newsletters, and bulletin boards as avenues to share information and establish and maintain open, two-way communication.

Bluejay Beginnings Preschool invites you to become involved in one or all of the following ways, and welcomes other ideas as well.

1. Support your child's daily transition to school by sharing information about your child's interests and abilities. Keeping the teacher informed of changes and events that might affect your child allows the teacher to be more responsive to your child's needs.
2. Attend family meetings.
3. Return all forms, questionnaires and other paperwork promptly.
4. Attend Family/Teacher conferences in the Fall and Spring semesters.
5. Check your child's backpack each day.
6. Participate in field trip activities.
7. Share some of your talents in your child's class through activities such as: reading or storytelling, cooking, art, music, sewing, crafts, hobbies, your profession, or artifacts from trips you have taken.
8. Share any of your families' cultural traditions, celebrations, or customs.
9. Help prepare snacks and enjoy it with your child.
10. Read all the material sent home with your child.
11. Come to play.
12. Help with special events. Helping takes many different forms such as preparation of materials at home, making telephone calls, preparing or posting flyers, recruiting other volunteers, collecting donations or prizes, running errands, photography, setup before the event, or clean afterwards.
13. Serve on the Parent Advisory Committee.

The school district will, to the extent possible, provide full opportunities for meaningful participation of the families with children with limited English proficiency, families with children with disabilities, including providing information and school reports in an understandable and uniform format and, including alternative formats on request, and, to the extent possible, in a language families understand.

The school district believes that families should be supported in making decisions about services that their children may need. The teaching staff will provide information to families about available community resources and assist as requested in helping the family make connections including - student health, mental health, assessment, and educational services for children. **QPPS 7.6, 7.7**

It is the policy of the Bondurant-Farrar Community School District not to discriminate on the basis of race, national origin, creed, age, marital status, or physical disability in its education programs, activities, or employment policies as required by Title VI or VIII of the 1964 Civil Rights Act, Title IX of the 1972 Education Amendments, and the Federal Rehabilitation Act of 1973.

Home Visits QPPS 1.1

Home visits are made at the beginning of the school year. This is an opportunity for the preschool teacher to get to know you, your child, and your family and for you to begin to create a partnership between home and school in order to best meet your child's needs. This is a great time for you to share what makes your family unique, how you prefer to communicate with the teacher, and share your knowledge about your child's interests, approaches to learning, and developmental needs. You can help the teacher understand what your goals are for your child and whether you have any concerns you'd like addressed. Parents are encouraged to share these preferences, concerns, and questions at any time with either the classroom teacher or administrator.

Family Teacher Conferences

The preschool program will have formal family teacher conferences at the same time as the elementary school - fall and spring. During the conference the teacher will share results of classroom assessments and samples of your child's work. Together you can make a plan to continue to encourage your child's growth and development. Parents are encouraged to share successes and concerns they have.

Family Night

Family night is an opportunity for you and your family to come to school to participate in fun as well as educational activities. Based on current educational needs, the teaching staff will select a topic for the evening. With help from family and student volunteers, the night will be planned to meet the needs of the children and families in the classroom.

Transitions QPPS 7.9, 7.10

Home-school connections are crucial to the transition to kindergarten or any other program, such as special education. The child's family provides the consistency and

continuity necessary for a young child to be successful. Making a change from one program to another can sometimes be difficult for a young child whether the transition is within the same building or in another location. Teaching staff will partner with the family to make the transition as smooth as possible by connecting family members with the next program's staff. Preschool staff will provide information about enrollment policies and procedures, program options, and arrange for a classroom visit whenever possible.

VII. HEALTH AND SAFETY

Bluejay Beginnings Preschool is committed to promoting wellness and to safeguard the health and safety of children and adults who participate in our program. In order to provide a safe and secure environment for every child and adult, we follow guidelines required by the Quality Preschool Program Standards, regulatory agencies and pediatric authorities in the field.

Health and Immunization Certificates QPPS 5.1

Bluejay Beginnings Preschool Program maintains current health records for each child. The program follows the requirements for enrollment related to immunizations established by the Iowa Department of Public Health [IAC 641-7].

If a child is overdue for any routine health services, parents, legal guardians, or both will need to provide evidence of an appointment for those services before the child's entry into the program and as a condition of remaining enrolled in the program, except for immunization for which parents are using a religious exemption.

Health and Safety Records QPPS 5.1

Health and safety information collected from families will be maintained on file for each child in the school nurse's office. Files are kept current by updating as needed, but at least quarterly. The content of the file is confidential, but is immediately available to administrators or teaching staff who have consent from a parent or legal guardian for access to records; the child's parent or legal guardian; and regulatory authorities, upon request.

Child Health and Safety Records will include:

1. Current information about any health insurance coverage required for treatment in an emergency;
2. Results of health examination, showing up-to-date immunizations and screening tests with an indication of normal or abnormal results and any follow-up required for abnormal results;
3. Current emergency contact information for each child, that is kept up to date by a specified method during the year;
4. Names of individuals authorized by the family to have access to health information about the child;
5. Instructions for any of the child's special health needs such as allergies or chronic illness (e.g., asthma, hearing or vision impairments, feeding needs,

neuromuscular conditions, urinary or other ongoing health problems, seizures, diabetes);

6. The program will follow the requirements for exclusions related to immunizations established by the Iowa Department of Public Health [IAC 641-7.3]

General Health and Safety Guidelines QPPS 5.2

- All staff must be alert to the health of each child, known allergies, or special medical conditions.
- Under the supervision of the preschool teacher, all staff must be alert to the whereabouts of all children. Systems are in place for accounting for children at regular intervals, especially during periods of transition.
- All staff are to follow proper procedures for hand washing, using disinfectant, and following universal precautions to prevent infections.
- All staff are familiar with evacuation routes and procedures.
- All teaching staff complete "Occupational Exposure to Bloodborne Pathogens" annually.
- At least one staff member who has a certificate showing satisfactory completion of pediatric first-aid training and satisfactory completion of pediatric CPR is always present with each class of children.

Illness Policy and Exclusion of Sick Children

For the health and safety of all the children, it is mandatory that sick children not be brought to school. If your child has any of the following symptoms during the night, he or she will not be admitted the following morning for the safety of the other children:

- fever greater than 100 degrees F
- vomiting
- diarrhea
- pink eyes with drainage
- cough with congestion and excessive nasal discharge

The school's established policy for an ill child's return:

- Fever free for 24 hours
- Chicken pox: one week after onset (or when lesions are crusted)
- Strep: 24 hours after initial medication
- Vomiting/Diarrhea: 24 hours after last episode
- Conjunctivitis: 24 hours after initial medication or when without drainage

Upon arrival at school, each child is observed by teaching staff for signs of illness or injury that could affect the child's ability to participate comfortably in the daily activities. Children will be excluded when a child is not able to participate comfortably; if the illness requires more care than staff are able to provide without compromising the needs of the other children in the group; or if keeping the child at school poses an increased risk to the child or to other children or adults with whom the child will come in contact.

When a child develops signs of an illness during their day at preschool, parents, legal guardians, or other person authorized by the parent will be notified immediately to pick up the child. For this reason, please be sure that we have current, accurate phone numbers for you, your authorized emergency contact person and your child's pediatrician. In the meantime, we will provide the child a place to rest until the parent, legal guardian or designated person arrives under the supervision of someone familiar with the child. If the child is suspected of having a contagious disease, then until she or he can be picked up, the child is located where new individuals will not be exposed.

Reporting Communicable Diseases QPPS 5.3

Staff and teachers provide information to families verbally and in writing about any unusual level or type of communicable disease to which their child was exposed, signs and symptoms of the disease, mode of transmission, period of communicability, and control measures that are being implemented at the program and that the families should implement at home. The program has documentation that it has cooperative arrangements with local health authorities and has, at least annually, made contact with those authorities to keep current on relevant health information and to arrange for obtaining advice when outbreaks of communicable disease occur.

Medication Policies and Procedures QPPS 5.8

Policy: The school will administer medication to children with written approval of the parent and an order from a health provider for a specific child. Because administration of medication in the school is a safety hazard, medication administration will be limited to situations where an agreement to give medicine outside preschool hours cannot be made. Whenever possible, the first dose of medication should be given at home to see if the child has any type of reaction.

Procedure:

Safeguards are used with all medications for children:

- 1) Staff administer both prescription and over-the-counter medications to a child only if the child's record documents that the parent or legal guardian has given the program written permission.
- 2) The child's record includes instructions from the licensed health provider who has prescribed or recommended the medication for that child.
- 3) Any administrator or teaching staff who administers medication has (a) specific training and (b) a written performance evaluation updated annually by a health professional on the practice of the six right practices of medication administration: (1) verifying that the right child receives the (2) right medication (3) in the right dose (4) at the right time (5) by the right method with documentation of each right each time the medication is given. (6) The person giving the medication signs documentation of items (1) through (5) above. Teaching staff who are required to administer special medical procedures have demonstrated to a health professional that they are competent in the procedures and are guided in writing about how to perform the procedure by the prescribing health care provider.

- 4) Medications are labeled with the child's first and last names, the date that either the prescription was filled or the recommendation was obtained from the child's licensed health care provider, the name of the medication or the period of use of the medication, the manufacturer's instructions or the original prescription label that details the name and strength of the medication, and instructions on how to administer and store it.

All medications are kept in a locked container. For prescription medications, parents or legal guardians will provide the school with the medication in the original, child-resistant container that is labeled by a pharmacist with the child's name, the name and strength of the medication; the date the prescription was filled; the name of the health care provider who wrote the prescription; the medication's expiration date; and administration, storage, and disposal instructions.

For over-the-counter medications, parents or legal guardians will provide the medication in a child-resistant container. The medication will be labeled with the child's first and last names; specific, legible instructions for administration and storage supplied by the manufacturer; and the name of the health care provider who recommended the medication for the child.

Instructions for the dose, time, method to be used, and duration of administration will be provided to the teaching staff in writing (by a signed note or a prescription label) or dictated over the telephone by a physician or other person legally authorized to prescribe medication. This requirement applies both to prescription and over-the-counter medications.

Medications will be kept at the temperature recommended for that type of medication, in a sturdy, child-resistant container that is locked and prevents spillage.

Medication will not be used beyond the date of expiration on the container or beyond any expiration of the instructions provided by the physician or other person legally permitted to prescribe medication. Instructions which state that the medication may be used whenever needed will be renewed by the physician at least annually.

A medication log will be maintained by the school staff to record the instructions for giving the medication, consent obtained from the parent or legal guardian, amount, the time of administration, and the person who administered each dose of medication. Spills, reactions, and refusal to take medication will be noted on this log.

Cleaning and Sanitization QPPS 9.11

The facility will be maintained in a clean and sanitary condition. When a spill occurs, the area will be made inaccessible to children and the area will be cleaned immediately.

Toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion will be removed immediately and disinfected after they are cleaned with soap and water. This also applies to other surfaces in the classroom.

Toys and surfaces will be disinfected using a non-toxic solution of one tablespoon household bleach to one quart of tap water made fresh daily. To disinfect, the surfaces will be sprayed until glossy. The bleach solution will be left on for at least 2 minutes before it is wiped off with a clean paper towel, or it may be allowed to air dry. Machine washable cloth toys that have been placed in a child's mouth or that are otherwise contaminated by body secretion or excretion must be laundered before another child's use. Toys that cannot be cleaned and sanitized will not be used.

Staff will be trained in cleaning techniques, proper use of protective barriers such as gloves, proper handling and disposal of contaminated materials, and information required by the US Occupational Safety and Health Administration about the use of any chemical agents.

Routine cleaning will be supervised by the preschool teacher and will follow the Cleaning and Sanitation Frequency Table provided by the Iowa Department of Education. A checklist will be completed as indicated in the table. Ventilation and sanitation, rather than sprays, air freshening chemicals, or deodorizers, will be used to control odors in inhabited areas of the facility and in custodial closets. **QPPS 5.18**

Facility cleaning requiring potentially hazardous chemicals will be scheduled when children are not present to minimize exposure of the children. All cleaning products will be used as directed by the manufacturer's label. Non Toxic substances will be used whenever possible.

Hand Washing Practices QPPS 5.8

Frequent hand washing is key to prevent the spread of infectious diseases. Teachers teach children how to wash their hands effectively. Posters of children using proper hand washing procedures are placed by each sink. The program follows these practices regarding hand washing:

- Staff members and those children who are developmentally able to learn personal hygiene are taught hand-washing procedures and are periodically monitored.
- Hand washing is required by all staff, volunteers, and children when hand washing reduces the risk of transmission of infectious diseases to themselves and to others.
- Staff assists children with hand washing as needed to successfully complete the task.

Children and adults wash their hands:

- upon arrival for the day;
- after diapering or using the toilet;
- after handling body fluids (e.g., blowing or wiping a nose, coughing on a hand, or any touching of mucus, blood or vomit);
- before meals and snacks, preparing or serving food, or handling any raw food that requires cooking (e.g., meat, eggs, poultry);
- after playing in water that is shared by two or more people;

- after handling pets and other animals or any materials such as sand, dirt, or surfaces that might be contaminated by contact with animals.

Adults also wash their hands:

- before and after feeding a child;
- before and after administering medication;
- after assisting a child with toileting; and
- after handling garbage or cleaning.

Proper hand-washing procedures are followed by adults and children and include:

- using liquid soap and running water;
- rubbing hands vigorously for at least 10 seconds, including back of hands, wrists, between fingers, under and around any jewelry, and under fingernails; rinsing well; drying hands with a paper towel, or a dryer; and avoiding touching the faucet with just-washed hands (e.g., by using a paper towel to turn off water).

Except when handling blood or body fluids that might contain blood (when wearing gloves is required), wearing gloves is an optional supplement, but not a substitute, for hand washing in any situation listed above.

- Staff must wear gloves when contamination with blood may occur.
- Staff does not use hand-washing sinks for bathing children or removing smeared fecal material.
- Hand hygiene with an alcohol-based sanitizer with 60% to 95% alcohol is an alternative to traditional hand-washing (for children over 24 months and adults) with soap and water when visible soiling is not present.

In situations where sinks are used for both food preparation and other purposes, staff clean and sanitize the sinks before using them to prepare food.

First Aid Kit QPPS 9.13

A first aid kit is located in the preschool classroom next to the door. It is inaccessible to children, but readily available for adult use. It is fully equipped according to guidance from Healthy Child Care Iowa. Following each use of the First Aid kit, the contents will be inspected and missing or used items replaced immediately. The First Aid kit will be inspected monthly. The first aid kit is taken to the outdoor play areas as well as on field trips and outings away from the site.

Fire Safety QPPS 9.13

A fire extinguisher is installed in the preschool classroom with a tag indicating its annual service date. The fire alarm system is serviced annually. Smoke detectors, fire alarms, and carbon monoxide detectors are tagged and serviced annually. A written log of testing dates and battery changes is maintained and available upon request. Fire drills are conducted monthly and recorded in a log.

Medical Emergencies and Notification of Accidents or Incidents QPPS 10.10

The Bondurant-Farrar Community School District has in place “Emergency Procedures” that describes the following situations and procedures to follow:

- Emergency phone numbers
- Fire procedures
- Utility Failures (electric power failure, water line break, gas line break)
- Severe weather
- Bomb threats
- Physical threats/Armed intruder
- Evacuations
- Crisis Intervention Plan, Crisis Intervention Steps, and Media Procedures
- Accidental Injury or Illness procedures for life threatening and non-life threatening situations
- School crisis team members and a checklist to use
- List of CPR/First Aid experienced persons in each building

This booklet will be posted by the telephone and included in the first aid kit. The booklet will be reviewed by each staff member at the beginning of each school year and when changes are made to it.

In the event that your child receives a minor, non-life threatening injury during their time at preschool, our teacher will assess the situation and apply first aid as needed. Minor cuts and scrapes will be treated with soap and water and bumps will be treated by applying ice to the injured area. Any incident or injuries will be documented on an "Injury and Illness" form and a copy will be given to the parent within 24 hours of the incident.

All staff will have immediate access to a device that allows them to summon help in an emergency. The telephone numbers of the Fire Department, Police Department, Hospital, and Poison Control will be posted by each phone with an outside line. Emergency contact information for each child and staff member will be kept readily available. The list of emergency telephone numbers and copies of emergency contact information and authorization for emergency transport will be taken along anytime children leave the facility in the care of facility staff.

Emergency phone numbers will be updated at least quarterly. Emergency phone numbers will be verified by calling the numbers to make sure a responsive, designated person is available.

Inclement Weather

Announcements for school closings, late starts, or early dismissals because of building emergencies or severe weather will be announced on the radio. The announcements will be on the air as early as possible. The following stations will be contacted: WHO Radio/TV 13, KCCI-TV 8, KRNT 1350 AM, and KIOA 93.3 FM.

*****IF THERE IS A LATE START, THERE WILL BE NO MORNING PRESCHOOL. IF THERE IS AN EARLY DISMISSAL, THERE WILL BE NO AFTERNOON PRESCHOOL.**

Protection from Hazards and Environmental Health QPPS 9.11

Program staff protects children and adults from hazards, including electrical shock, burns, or scalding, slipping, tripping, or falling. Floor coverings are secured to keep staff and children from tripping or slipping.

The preschool classroom building has been tested for lead, radon, radiation, asbestos, fiberglass, and other hazards that could impact children's health with documentation on file. Custodial staff maintain the building's heating, cooling, and ventilation systems in compliance with national standards for facility use by children.

The program maintains facilities so they are free from harmful animals, insect pests, and poisonous plants. Pesticides and herbicides, if used, are applied according to the manufacturer's instructions when children are not at the facility and in a manner that prevents skin contact, inhalation, and other exposure to children. The program uses the techniques known as Integrated Pest Management (IPM) so that the least hazardous means are used to control pests and unwanted vegetation.

Smoke Free Facility QPPS 9.15

In compliance with the Iowa Smokefree Air Act of 2008, Bondurant-Farrar Community School buildings and grounds are smoke free. A "No Smoking" sign meeting the law's requirements is posted at the entrance to the preschool classroom building to inform people that they are entering a non-smoking location. No smoking is allowed on the school grounds or within sight of any children.

Child Protection Policies QPPS 10.6, 10.12

The health and well being of every child in our care is of the utmost importance and the protection of children is our responsibility. An applicant or volunteer for temporary or permanent employment with the preschool program involves direct interaction with or the opportunity to interact and associate with children must execute and submit an affidavit of clearance from any and all crimes against a child or families. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children.

The program has written school board policy for reporting child abuse and neglect as well as procedures in place that comply with applicable federal, state, and local laws. The policy includes requirements for staff to report all suspected incidents of child abuse, neglect, or both by families, staff, volunteers, or others to the appropriate local agencies. Staff who report suspicions of child abuse or neglect where they work are immune from discharge, retaliation, or other disciplinary action for that reason alone unless it is proven that the report is malicious. All teaching staff complete "Mandatory Reporter: Child and Dependent Adult Abuse" at least every five years and within six months of employment.

The school district does not tolerate employees physically, or sexually abusing or harassing students. Students who are physically or sexually abused or harassed by an employee should notify their parents, legal guardians, teacher, principal, or another employee. The Iowa Department of Education has established a two-step procedure

for investigating allegations of physical or sexual abuse of students by employees. That procedure requires the school district to designate an independent investigator to look into the allegations. The school district has designated Chad Carlson at 967-7819. The alternate investigator is Rich Powers and may be reached at 967-7819.

Substance Abuse

Persons under the influence of drugs or alcohol will not be permitted on the premises of the Bondurant-Farrar Community School. At no time will children be released to a person under the influence of alcohol or drugs.

Volunteers QPPS 10.15, 10.17

Parents, friends, grandparents, and other adults are encouraged to take an active part in the educational process of the children. Please contact the teacher, the elementary principal, or our office secretary if you would like to be a school volunteer. We have a volunteer job description that defines the role and responsibilities of a volunteer. For safety's sake, if a volunteer will be working with children, he/she will be expected to execute and submit an affidavit of clearance from any and all crimes against a child or families. All adults wishing to volunteer must fill out a volunteer form before working with students. In addition no person with a substantiated report of child abuse or neglect will come in contact with children in the program or have responsibility for children. If a volunteer works more than 40 hours per month with children, he/she will also need to provide a current health assessment, not more than one year old.

VIII. Staff QPPS 10.11 - 10.14

General Information

The Bondurant-Farrar Community School district has written personnel policies that define the roles and responsibilities, qualifications, and specialized training required of staff and volunteer positions. The policies outline nondiscriminatory hiring procedures and policies for staff evaluation. Policies detail job descriptions for each position, including reporting relationships; salary scales with increments based on professional qualification, length of employment, and performance evaluation; benefits; and resignation, termination, and grievance procedures. Personnel policies provide for incentives based on participation in professional development opportunities. The policies are provided to each employee upon hiring.

Hiring procedures include completion of the following checks: criminal-record check, free from history of substantiated child abuse or neglect check, education credentials, verification of age, completion of high school or GED, personal references and a current health assessment.

Orientation QPPS 6.1

Employees must know their role and duties. New preschool teaching staff will be required to participate in an initial orientation program that introduces them to fundamental aspects of the program operation including:

- Program philosophy, mission, and goals;
- Expectations for ethical conduct;
- Individual needs of children they will be teaching or caring for;
- Accepted guidance and classroom management techniques;
- Daily activities and routines of the program;
- Program curriculum;
- Child abuse and reporting procedures;
- Program policies and procedures;
- Iowa Quality Preschool Program Standards and Criteria;
- Regulatory requirements.

Follow-up training expands on the initial orientations. See Staff Orientation Checklist.

The employee's immediate supervisor should provide the new employee with a review of the employee's responsibilities and duties. A district designee will explain payroll procedures, employee benefit programs and accompanying forms to the employee.

Staffing Patterns and Schedule

The preschool program is in compliance with staff regulations and certification requirements. Our program follows requirements for staffing for Iowa's Quality Preschool Program Standards of maintaining an adult/child ratio of at least 1:10 at all times. The program administrator will maintain lists of current substitutes for both the preschool teacher and the preschool teaching assistant in case of absence.

Staff are provided space and time away from children during the day. Should staff work directly with children for more than four hours, staff are provided breaks of at least 15 minutes in each four-hour period. In addition, staff may request temporary relief when they are unable to perform their duties.

Staff Development Activities QPPS 6.5, 10.11

Personnel policies provide for incentives based on participation in professional development opportunities. Teaching staff will be informed of professional development activities provided by Child Care Resource and Referral, and the AEA (Area Education Agency). Staff members are expected to attend all staff trainings and meetings throughout the year. Trainings will focus on early childhood topics relevant to the program and community. All teachers and assistant teachers-teacher aides have specialized professional development training in how to accurately use the program's assessment procedures for assessment of child progress and program quality. Their training is used to adapt classroom practices and curriculum activities.

Evaluation and Professional Growth Plan QPPS 6.6

All staff are evaluated at least annually by an appropriate supervisor or, in the case of the program administrator, by the superintendent or designee. Staff also evaluate and improve their own performance based on ongoing reflections and feedback from supervisors, peers, and families. From this, they develop an annual individualized professional development plan with their supervisor and use it to inform their continuous professional development.
