

2022 Bondurant Summer Camps

*Dependent on student's grade level in the fall of 2022 *

Bondurant-Farrar's interactive and FUN camp sessions are for students going into 2nd through 8th grade in the Fall of 2022. Many of the sessions are offered twice, as we know everyone has busy schedules.

Each session is lead by a BFCSD Teacher who will highly engage and inspire student's creativity and imagination.

\$75 per session

<https://bfschools.revtrak.net/>

In order to give your child(ren) the best experience. We are requiring a minimum of 8 students for the camp to proceed.

Contact Molly Rockefeller at rockefellerm@bfschools.org with any questions

Outline of Summer Camps Offered

Description, location, and the time offered are on the following pages. The grade listed is for the Fall of 2022.

June 6 - 10

2nd - 4th Grade - Computer Science paired with Science Center

4th - 8th Grade - Cooking with Ms. Stein

4th - 8th Grade - Art Jam with Mr. Golightly

4th - 8th Grade - Animal Friends Camp

5th - 7th Grade - Computer Science paired with Science Center

June 13 - 17

2nd - 4th Grade - Art Exploration with Mrs. Reyerson

4th - 8th Grade - Baking with Ms. Lindhart

5th - 7th Grade - Art Exploration with Mrs. Reyerson

June 27 - July 1

2nd - 3rd Grade - Exploratory STEM with Ms Rockefeller

2nd - 5th Grade - Explore with Miss Fall and Miss Wanninger

4th - 8th Grade - Sports Mania with Ms. Schulz

4th - 8th Grade - Design and Crafting with Ms. Lindhart

July 11 - 15

1st - 4th Grade - Spanish 1 with Maestra Fisher

2nd - 5th Grade - Explore with Miss Fall and Miss Wanninger

4th - 8th Grade - Cooking with Ms. Stein

5th - 8th Grade - Art Jam with Mr. Golightly

July 18 - 22

1st - 4th Grade - Spanish 1 with Maestra Fisher

2nd - 5th Grade - Explore with Miss Fall and Miss Wanninger

4th - 8th Grade - Baking Camp with Ms Stein

4th - 7th Grade - LEGO Robotics with Ms Rockefeller

July 25 - 29

1st - 4th Grade - Spanish 2 with Maestra Fisher

2nd - 5th Grade - Explore with Miss Fall and Miss Wanninger

June 6-10

MORNING SESSIONS: 9:00 - 12:00

Cooking with Ms. Stein

4th -8th Grade Students

Location: High School FCS Room

Throughout the week students will learn and execute basic cooking skills. While cooking we will explore all the different food groups and learn ways to prepare a variety of dishes. Students will get to practice different recipes and techniques all while building their teamwork skills. The week will culminate with a cooking challenge where students will put their skills to the test to see who can design the best dish!

Computer Science paired with the Science Center with Miss Rockefeller and Miss Pelds

2nd - 4th Grade Students

Location: Middle School

Learn how to use the Micro:bit, a tiny computer or microcontroller, to create and innovate. Make music, design a sensor, control a game, and communicate information. Through this class participants will learn new skills like coding and prototyping, design and test their own innovations, and gain confidence in their abilities as a Maker. During the week students will be able to go to the Science Center to explore!

Art Jam with Mr. Golightly

4th - 8th Grade Students

Location: High School

Throughout the week students will have the opportunity to explore a wide range of art mediums. As we play with the different materials we will also explore different art movements and strategies for meaningful art making. Students will also practice sharing constructive feedback with peers to build a growth mindset art community. After students are introduced to each available material they will be free to choose their favorites or mix and match as they create independent works of art each day.

Animal Friends with Mrs. Hurley

4th - 8th Grade Students

Location: Middle School

This camp will offer the chance for kids to learn more about animals through games, projects, and interactions. Students will have an opportunity to make items for the ARL, have meet and greets with dogs, and will learn new facts about some of their favorite animals. This camp also includes a field trip to the Blank Park Zoo.

AFTERNOON SESSION: 1:00 - 4:00

Computer Science paired with the Science with Miss Rockefeller and Miss Pelds

5th - 7th Grade Students

Location: Middle School

Learn how to use the Micro:bit, a tiny computer or microcontroller, to create and innovate. Make music, design a sensor, control a game, and communicate information. Through this class participants will learn new skills like coding and prototyping, design and test their own innovations, and gain confidence in their abilities as a Maker. During the week students will be able to go to the Science Center to explore!

June 13-17

MORNING SESSIONS: 9:00 - 12:00

Art Exploration with Mrs. Reyerson

2nd -4th Grade Students

Location: Anderson Elementary

This camp is designed to allow your student to explore different art media and materials in a fun, creative way! We will be exploring the art mediums of painting, drawing, sculpture, printmaking, and much more! Students will be learning to tie dye during one of the sessions so an item to dye is required (100% cotton for best results). Paint shirts will be provided.

Baking with Ms. Lindhart

4th -8th Grade Students

Location: High School FCS Room

During this camp students will get to explore all things baked. They will learn and practice key techniques used to create a variety of baked goods. Students will also explore some of the science behind baking while we create our desserts. Each recipe will help them learn about how flavors and textures can work together to create satisfying desserts. Each new recipe we try will also give the students the opportunity to practice plating and decorating desserts in fancy and fun ways.

AFTERNOON SESSION: 1:00 - 4:00

Art Exploration with Mrs. Reyerson

5th - 7th Grade Students

Location: Anderson Elementary

This camp is designed to allow your student to explore different art media and materials in a fun, creative way! We will be exploring the art mediums of painting, drawing, sculpture, printmaking, and much more! Students will be learning to tie dye during one of the sessions so an item to dye is required (100% cotton for best results). Paint shirts will be provided.

June 27- July 1

MORNING SESSIONS: 9:00 - 12:00

Design and Crafting with Ms. Lindhart

4th -8th Grade Students

Location: High School FCS Room

This camp will give students an opportunity to learn design and crafting concepts and learn some new skills. We will start by getting to know different types of crafting techniques and create a simple hand-sewing project. Then students will get to choose a more challenging project to help build their skills. Some options will include knitting, crocheting, cross stitching, and embroidery. The week will end with a larger fabric-based project and the opportunity to try a sewing machine to guide students onto even more creative paths!

Explore with Miss Fall and Miss Wanninger

2nd - 5th Grade Students

Location: Anderson

Throughout the week students will be engaging in multiple hands-on activities that involve computational thinking, STEM, problem solving skills, and team building strategies. These activities will involve technology, building, and movement in scavenger hunts, escape rooms, etc. At the end of the week we will celebrate our success and new problem-solving skills together!

Sports Mania with Ms. Schulz

4th -8th Grade Students

Location: Middle School

Do you have a competitive edge or just like to play sports? If so, Sports Mania is for you! Students will play a wide variety of sports such as basketball, pickleball, soccer, floor hockey, etc. This is a great way for students to be physically active and have fun. Students will even complete a Ninja Warrior course!

Exploratory STEM with Ms Rockefeller

2nd - 3rd Grade Students

Location: Middle School STEM Room

Throughout the week students will explore different areas of STEM in a collaborative way. Students will utilize Bee-Bots, Osmos, LEGO Robots, Scratch Jr, and Cubettos to explore computer programming in a hands-on way. Using teamwork and imagination, students will build ramps, pathways, and K'Nex/LEGOs to problem solve. They will also have the opportunity to explore virtual reality! This camp is extremely engaging to encourage a love for the STEM field.

These activities will involve technology, building, and movement in scavenger hunts, escape rooms, etc. At the end of the week we will celebrate our success and new problem-solving skills together!

Spanish 1 with Maestra Fisher

1st - 4th Grade Students

Location: Middle School

Explore Spanish through games, movement, storytelling, and crafts. Students will be introduced to sample of Spanish vocabulary including greetings, colors, animals, body parts, and more. The teacher will provide short phrases so students can easily interact with each other in Spanish from the very beginning of camp. We will also take a look at what elementary school is like for students in different Spanish speaking countries and compare it to school in Iowa.

Cooking Camp with Ms Stein

4th -8th Grade Students

Location: High School

Throughout the week students will learn and execute basic cooking skills. While cooking we will explore all the different food groups and learn ways to prepare a variety of dishes. Students will get to practice different recipes and techniques all while building their teamwork skills. The week will culminate with a cooking challenge where students put their skills to the test to see who can design the best dish!

LEGO ROBOTICS with Ms. Rockefeller

4th -7th Grade Students

Location: Middle School STEM Room

This camp will give students an opportunity to build and program robots using an iPad and/or Chromebook. The camp is designed for students wanting to learn more about building and programming. Students will even have competitions with the robots they build! Come have fun while creating with your imagination.

July 25-29

MORNING SESSIONS:
9:00 - 12:00

Spanish 2 with Maestra Fisher

1st - 4th Grade Students

Location: Middle School

Maestra Fisher invites students back for a second week of Spanish for more games, stories, movement and crafts! We will review what was learned in week one, and build on that to express likes and dislikes. We will also include new vocabulary including body parts and food.

Explore with Miss Fall and Miss Wanninger

2nd - 5th Grade Students

Location: Anderson

Throughout the week students will be engaging in multiple hands-on activities that involve computational thinking, STEM, problem solving skills, and team building strategies. These activities will involve technology, building, and movement in scavenger hunts, escape rooms, etc. At the end of the week we will celebrate our success and new problem-solving skills together!
